FURTHER PRODUCT INFORMATION

IP addresses

With the provision of Internet products, the customer has an IP address (dynamic) free of charge. If desired, a paid fixed IP address can be assigned to the MAC address of the hardware used by the customer. This remains permanent exist, unless a change for technical reasons is necessary (section 3.4 of the Terms and Conditions Internet). Should the corresponding MAC address change due to a hardware change, the customer is obliged to inform the MDCC. If this message does not occur, the fixed IP address automatically changes to a dynamic IP address. MDCC is then exempted from any claims for damages.

Kundenportal - Customer self care

For MDCC customers, the customer portal on www.mdcc.de contains various applications such as support, invoice report etc. Access is via password and user ID. These access data will be sent with the order confirmation.

SPECIFICATIONS OTHER FEES MDCC-CAMPUS

1. Standard service

MDCC Magdeburg-City-Com GmbH (hereinafter referred to as MDCC) provides the customer of a broadband cable connection contract with MDCC or a cable network operator cooperating with MDCC within the scope of existing technical and operational possibilities Internet connections in their network area.

2. Use of a customer telecommunication terminal

The customer is permitted to connect his own telecommunication terminal under the conditions which are regulated in the Technical Bulletin of the MDCC to the Internet Contract.

3. Suppression

MDCC immediately eliminates disruptions to its technical facilities within existing technical and operational capabilities.

3.1 Acceptance of the disturbances

MDCC accepts 24 hour, 7 days a week faults under the service number 0391/5874444.

3.2 Service readiness

MDCC handles faults Monday through Thursday from 8:00 am to 4:00 pm, Fridays from 8:00 am to 2:00 pm, except on public holidays.

3.3 Deadline, Appointment

For fault messages that are within the service readiness period, MDCC eliminates the fault within 24 hours if it is possible to clear it within the MDCC network. The elimination period is met if the telephone connection (possibly transitional with quality restrictions) can be used again within 24 hours. In the case of fault reports that are received out of service readiness, the elimination period is suspended and continued the following working day. If necessary, MDCC will arrange with the customer for a visit by a service technician within the service readiness. If, due to reasons for which the customer is responsible, it is not possible to make an appointment or to rectify the problem, the rule deadline is considered met.

3.4 Feedback

Upon request, MDCC informs the customer after completion of the suppression.

4. Invoice

Once a month, the customer receives an invoice from MDCC for the services ordered by him (monthly basic price, chargeable features, etc.).
